

# First American Drive:

A golf ball.

A nail.

## A Habitat for Humanity Condominium!

First American's Annual Charity Golf Tournament continues to change lives. Funds raised from this year's tournament were donated to Habitat for Humanity and, during the recent MBA conference in Boston, a First American-donated condominium began construction. The 16-unit building will deliver the pride of ownership to several families in need of housing and represents another way First American employees and our business partners are making a real difference.

First American
