

Five Star Forum Mission Statement – external 1

The Five Star Forum was created to bring the top minds in the default industry together in an open environment to freely exchange ideas, increase understanding of significant issues, and to take an active role in shaping the future of the industry. The insight, perspective, expertise and subsequent action the Forum generates will help to create industry standards, shape legislation, foster education and further business opportunities impacting participants throughout the default cycle.

Five Star Mission Statement – external 2

The Five Star Forum brings together an extraordinary collection of the recognized leaders in the default industry to openly share ideas on current conditions and future opportunities. The Forum is charged with helping to shape the industry by creating standardization, increasing education and generating exposure that will directly benefit participants at all steps in the default cycle.

Five Star Mission Statement – internal 1

The Five Star Forum represents an exceptional opportunity to expand the Five Star brand while creating additional revenue sources for our company. The Forum facilitates open discussion and strategic action from a select panel of the default industry's top talent. Under the Five Star brand, the Forum's growing prominence within the industry will help to boost revenue through increased Five Star Conference attendance, new educational opportunities, collateral marketing ventures and will further position Five Star as the voice for the default industry.

Five Star Mission Statement – internal 2

The Five Star Forum provides a unique environment for the default industry's top talent to openly share ideas on current conditions, create industry standardization, and to identify future opportunities. The Forum will dramatically expand the Five Star brand helping to uncover new revenue streams through increased Five Star Conference attendance, new educational opportunities and collateral marketing, and will cement Five Star's position as the most recognized source of information for all facets of the default industry.
